

ensures that the TFAC is balanced in terms of points of view and demographics. Priority may be given to candidates who have executive-level (Chief Executive Officer, Executive Chairman, President, or comparable level of responsibility) experience.

Members, with the exception of those from academia and public policy organizations, serve in a representative capacity, representing their own views and interests and those of their particular sector, not as Special Government Employees. The members from academia and public policy organizations serve as experts and therefore are Special Government Employees (SGEs), pursuant to 18 U.S.C. 202, and will be required to comply with certain ethics laws and rules, including filing a Confidential Financial Disclosure form. Additionally, a member serving as an expert must not be a Federally Registered Lobbyist.

Prospective nominees should designate the capacity in which they are applying to serve and identify either their area of expertise or the U.S. industry sector they wish to represent. Members of the TFAC will not be compensated for their services or reimbursed for their travel expenses. Appointments to the TFAC shall be made without regard to political affiliation.

Each member shall be appointed for a term of two years and will serve at the pleasure of the Secretary. The Secretary may at his/her discretion reappoint any member to an additional term or terms, provided that the member proves to work effectively on the TFAC and his/her knowledge and advice are still needed.

The TFAC chair and vice chair or vice chairs shall be selected from the members of the TFAC by the Assistant Secretary for Industry & Analysis after consulting with the members. Their term of service will not exceed the duration of the current charter term and they may be reselected for additional periods should the charter be renewed and should they remain on the TFAC.

### III. Compensation

Members will not be paid for their engagement in the performance of their duties as members of the Council. Members will not receive per diem and travel expenses.

### IV. Nomination

The Department of Commerce will consider nominations of all qualified individuals to ensure that the TFAC includes representatives of the viewpoints and members with the areas of subject matter expertise noted above

(see "Structure, Membership and Operation"). Individuals may nominate themselves or other individuals, and a company, institution, trade association, or organization may nominate a qualified representative for membership on the TFAC.

Nominations shall state that the nominee is willing to serve as a member of the TFAC. All nomination packages should include the following information for each nominee: (1) Name and title of the individual requesting consideration. (2) Nominations shall state that the nominee is willing to serve as a member of the TFAC. The potential candidate's personal resume and short biography (less than 300 words). (3) A brief statement describing how the potential candidate will contribute to the work of the TFAC based on his/her unique experience and perspective (not to exceed 100 words). (4) All relevant contact information, including mailing address, fax, email, phone number, and support staff information where relevant. (5) An affirmative statement that the potential candidate meets all eligibility criteria, including an affirmative statement that the potential candidate is not required to register as a foreign agent under the Foreign Agents Registration Act of 1938, as amended.

In addition, for a potential candidate to serve in a representative capacity: (a) A sponsor letter on the sponsoring entity's letterhead containing a brief statement of why the potential candidate should be considered for membership on the TFAC. This sponsor letter should also address the potential candidate's experience and leadership related to trade finance; (b) A brief description of the company, institution, trade association, or organization to be represented and its business activities and export market(s) served, if applicable; (c) Information regarding the ownership and control of the sponsoring entity, including the stock holdings as appropriate; and (d) The sponsoring entity's size (number of employees and annual sales), place of incorporation, product or service line, major markets in which the entity operates, and the entity's export or import experience.

In addition, for a potential candidate to serve as an expert: A statement that the potential candidate is not a Federally registered lobbyist and that the potential candidate understands that, if appointed, the potential candidate will not be allowed to continue to serve as a Committee member if the potential candidate becomes a Federally registered lobbyist.

Dated: July 19, 2016.

### Certain Corrosion-Resistant Steel Products From India, Italy, Republic of Korea and the People's Republic of China: Countervailing Duty Order

**AGENCY:** Enforcement and Compliance, International Trade Administration, Department of Commerce.

**SUMMARY:** Based on affirmative final determinations by the Department of Commerce ("Department") and the International Trade Commission ("ITC"), the Department is issuing a countervailing duty order on certain corrosion-resistant steel products ("corrosion-resistant steel") from India, Italy, Republic of Korea ("Korea"), and the People's Republic of China ("PRC").

**DATES:** Effective July 25, 2016.

#### FOR FURTHER INFORMATION CONTACT:

Myrna Lobo at (202) 482-2371 (the Republic of Korea); Emily Halle at (202) 482-0176 (the People's Republic of China); Matt Renkey at (202) 482-2312 (India); Robert Palmer at (202) 482-9068 (Italy); AD/CVD Operations, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230.

#### SUPPLEMENTARY INFORMATION:

##### Background

In accordance with sections 705(d) of the Tariff Act of 1930, as amended ("Act"), on June 2, 2016, the Department published its affirmative final determinations that countervailable subsidies are being provided to producers and exporters of corrosion-resistant steel from India, Italy, Korea, and the PRC.<sup>1</sup> On July 15,

<sup>1</sup> See *Countervailing Duty Investigation of Certain Corrosion-Resistant Steel Products From Italy: Final Affirmative Determination and Final Affirmative Critical Circumstances, in Part*, 81 FR 35326 (June 2, 2016); *Countervailing Duty Investigation of Certain Corrosion-Resistant Steel Products From the People's Republic of China: Final Affirmative Determination, and Final Affirmative Critical Circumstances Determination, in Part*, 81 FR 35308 (June 2, 2016); *Countervailing Duty Investigation of Certain Corrosion-Resistant Steel Products From India: Final Affirmative Determination*, 81 FR

Continued

2016, the ITC notified the Department of its affirmative determinations that an industry in the United States is materially injured within the meaning of section 735(b)(1)(A)(ii) of the Act by reason of subsidized imports of subject merchandise from India, Italy, Korea, and the PRC, and its determination that critical circumstances do not exist with respect to imports of subject merchandise from these countries that are subject to the Department's affirmative critical circumstances finding.<sup>2</sup>

### Scope of the Order

The products covered by this investigation are certain corrosion-resistant steel products. For a complete description of the scope of the order, see Appendix I.

### Countervailing Duty Order

In accordance with sections 705(b)(1)(A)(i) and 705(d) of the Act, the ITC has notified the Department of its final determinations that the industry in the United States producing corrosion-resistant steel is materially injured by reason of subsidized imports of corrosion-resistant steel from India, Italy, Korea, and the PRC, and that critical circumstances do not exist with respect to imports of subject merchandise from Italy, Korea, and the PRC that are subject to the Department's affirmative critical circumstances finding, in part. Therefore, in accordance with section 705(c)(2) of the

Act, we are publishing these countervailing duty orders.

As a result of the ITC's final determinations, in accordance with section 706(a) of the Act, the Department will direct U.S. Customs and Border Protection ("CBP") to assess, upon further instruction by the Department, countervailing duties on unliquidated entries of corrosion-resistant steel from India, Italy, Korea, and the PRC entered, or withdrawn from warehouse, for consumption on or after November 6, 2015, the date on which the Department published its preliminary countervailing duty determinations in the **Federal Register**,<sup>3</sup> and before March 4, 2016, the date on which the Department instructed CBP to discontinue the suspension of liquidation in accordance with section 703(d) of the Act. Section 703(d) of the Act states that the suspension of liquidation pursuant to a preliminary determination may not remain in effect for more than four months. Therefore, entries of corrosion-resistant steel made on or after March 4, 2016, and prior to the date of publication of the ITC's final determination in the **Federal Register** are not liable for the assessment of countervailing duties due to the Department's discontinuation, effective March 4, 2016, of the suspension of liquidation.

### Continuation of Suspension of Liquidation

In accordance with section 706 of the Act, the Department will direct CBP to

reinstitute the suspension of liquidation of corrosion-resistant steel from India, Italy, Korea, and the PRC, effective on the date of publication of the ITC's notice of final determinations in the **Federal Register**, and to assess, upon further instruction by the Department pursuant to section 706(a)(1) of the Act, countervailing duties for each entry of the subject merchandise in an amount based on the net countervailable subsidy rates for the subject merchandise, except for subject merchandise entered by the *de minimis* companies from Italy (Acciaieria Arvedi S.p.A., Finarvedi S.p.A., Arvedi Tubi Acciaio S.p.A., Euro-Trade S.p.A., Siderurgica Triestina Srl., Marcegaglia S.p.A. and Marfin S.p.A.) and the *de minimis* companies from Korea (Union Steel Manufacturing Co. Ltd/Dongkuk Steel Mill Co., Ltd.). These exclusions will apply only to subject merchandise both produced and exported by *de minimis* companies from Italy (Acciaieria Arvedi S.p.A., Finarvedi S.p.A., Arvedi Tubi Acciaio S.p.A., Euro-Trade S.p.A., Siderurgica Triestina Srl., Marcegaglia S.p.A. and Marfin S.p.A.) and the *de minimis* companies from Korea (Union Steel Manufacturing Co. Ltd/Dongkuk Steel Mill Co., Ltd.). On or after the date of publication of the ITC's final injury determinations in the **Federal Register**, CBP must require,<sup>4</sup> at the same time as importers would normally deposit estimated duties on this merchandise, a cash deposit equal to the rates noted below:

	Subsidy rate (percent)

All-Others .....	39.05

## Critical Circumstances

With regard to the ITC's negative critical circumstances determination on imports of corrosion-resistant steel from Italy, Korea, and the PRC, we will instruct CBP to lift suspension and to refund any cash deposits made to secure the payment of estimated countervailing duties with respect to entries of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after August 8, 2015 (*i.e.*, 90 days prior to the date of the publication of the CVD *Preliminary Determinations*), but before November 6, 2015 (*i.e.*, the date of publication of the CVD *Preliminary Determinations*).

## Notifications to Interested Parties

This notice constitutes the countervailing duty orders with respect to corrosion-resistant steel from Italy, India, Korea, and the PRC pursuant to section 706(a) of the Act. Interested parties may contact the Department's Central Records Unit, Room B8024 of the main Commerce Building, for copies of an updated list of countervailing duty orders currently in effect.

These orders are issued and published in accordance with section 706(a) of the Act and 19 CFR 351.211(b).

Dated: July 18, 2016.

**Paul Piquado,**  
Assistant Secretary for Enforcement and Compliance.

## Appendix I

The products covered by this order are certain flat-rolled steel products, either clad, plated, or coated with corrosion-resistant metals such as zinc, aluminum, or zinc-, aluminum-, nickel- or iron-based alloys, whether or not corrugated or painted, varnished, laminated, or coated with plastics or other non-metallic substances in addition to the metallic coating. The products covered include coils that have a width of 12.7 mm or greater, regardless of form of coil (*e.g.*, in successively superimposed layers, spirally oscillating, *etc.*). The products covered also include products not in coils (*e.g.*, in straight

lengths) of a thickness less than 4.75 mm and a width that is 12.7 mm or greater and that measures at least 10 times the thickness. The products covered also include products not in coils (*e.g.*, in straight lengths) of a thickness of 4.75 mm or more and a width exceeding 150 mm and measuring at least twice the thickness. The products described above may be rectangular, square, circular, or other shape and include products of either rectangular or non-rectangular cross-section where such cross-section is achieved subsequent to the rolling process, *i.e.*, products which have been "worked after rolling" (*e.g.*, products which have been beveled or rounded at the edges). For purposes of the width and thickness requirements referenced above:

(1) Where the nominal and actual measurements vary, a product is within the scope if application of either the nominal or actual measurement would place it within the scope based on the definitions set forth above, and

(2) where the width and thickness vary for a specific product (*e.g.*, the thickness of certain products with non-rectangular cross-section, the width of certain products with non-rectangular shape, etc.), the measurement at its greatest width or thickness applies.

Steel products included in the scope of this order are products in which: (1) iron predominates, by weight, over each of the other contained elements; (2) the carbon content is 2 percent or less, by weight; and (3) none of the elements listed below exceeds the quantity, by weight, respectively indicated:

- 2.50 percent of manganese, or
- 3.30 percent of silicon, or
- 1.50 percent of copper, or
- 1.50 percent of aluminum, or
- 1.25 percent of chromium, or
- 0.30 percent of cobalt, or
- 0.40 percent of lead, or
- 2.00 percent of nickel, or
- 0.30 percent of tungsten (also called wolfram), or
- 0.80 percent of molybdenum, or
- 0.10 percent of niobium (also called columbium), or
- 0.30 percent of vanadium, or
- 0.30 percent of zirconium

Unless specifically excluded, products are included in this scope regardless of levels of boron and titanium.

For example, specifically included in this scope are vacuum degassed, fully stabilized (commonly referred to as interstitial-free ("IF")) steels and high strength low alloy

("HSLA") steels. IF steels are recognized as low carbon steels with micro-alloying levels of elements such as titanium and/or niobium added to stabilize carbon and nitrogen elements. HSLA steels are recognized as steels with micro-alloying levels of elements such as chromium, copper, niobium, titanium, vanadium, and molybdenum.

Furthermore, this scope also includes Advanced High Strength Steels ("AHSS") and Ultra High Strength Steels ("UHSS"), both of which are considered high tensile strength and high elongation steels.

Subject merchandise also includes corrosion-resistant steel that has been further processed in a third country, including but not limited to annealing, tempering, painting, varnishing, trimming, cutting, punching and/or slitting or any other processing that would not otherwise remove the merchandise from the scope of the order if performed in the country of manufacture of the in-scope corrosion resistant steel.

All products that meet the written physical description, and in which the chemistry quantities do not exceed any one of the noted element levels listed above, are within the scope of this order unless specifically excluded. The following products are outside of and/or specifically excluded from the scope of this order:

- Flat-rolled steel products either plated or coated with tin, lead, chromium, chromium oxides, both tin and lead ("terne plate"), or both chromium and chromium oxides ("tin free steel"), whether or not painted, varnished or coated with plastics or other non-metallic substances in addition to the metallic coating;

- Clad products in straight lengths of 4.7625 mm or more in composite thickness and of a width which exceeds 150 mm and measures at least twice the thickness; and

- Certain clad stainless flat-rolled products, which are three-layered corrosion-resistant flat-rolled steel products less than 4.75 mm in composite thickness that consist of a flat-rolled steel product clad on both sides with stainless steel in a 20%–60%–20% ratio.

The products subject to the order are currently classified in the Harmonized Tariff Schedule of the United States ("HTSUS") under item numbers: 7210.30.0030, 7210.30.0060, 7210.41.0000, 7210.49.0030, 7210.49.0091, 7210.49.0095, 7210.61.0000, 7210.69.0000, 7210.70.6030, 7210.70.6060, 7210.70.6090, 7210.90.6000, 7210.90.9000, 7212.20.0000, 7212.30.1030, 7212.30.1090, 7212.30.3000, 7212.30.5000, 7212.40.1000, 7212.40.5000, 7212.50.0000, and 7212.60.0000.

<sup>5</sup> De minimis.

<sup>6</sup> Id.

<sup>7</sup> Id.

The products subject to the order may also enter under the following HTSUS item numbers: 7210.90.1000, 7215.90.1000, 7215.90.3000, 7215.90.5000, 7217.20.1500, 7217.30.1530, 7217.30.1560, 7217.90.1000, 7217.90.5030, 7217.90.5060, 7217.90.5090, 7225.91.0000, 7225.92.0000, 7225.99.0090, 7226.99.0110, 7226.99.0130, 7226.99.0180, 7228.60.6000, 7228.60.8000, and 7229.90.1000.

The HTSUS subheadings above are provided for convenience and customs purposes only. The written description of the scope of the order is dispositive.

<sup>2</sup> See Letter to Christian Marsh, Deputy Assistant Secretary of Commerce for Enforcement and Compliance, from Irving A. Williamson, Chairman of the U.S. International Trade Commission, regarding certain corrosion-resistant steel products from India, Italy, Korea, the PRC, and Taiwan (July 15, 2016) ("ITC Letter"); see also Corrosion-Resistant Steel Products from India, Italy, Korea, the PRC, and Taiwan, USITC Investigation Nos. 701-TA-534-537 and 731-TA-1274-1278 (Final), USITC Publication 4620 (July 2016).

a width of 12.7 mm or greater, regardless of form of coil (e.g., in successively superimposed layers, spirally oscillating, etc.). The products covered also include products not in coils (e.g., in straight lengths) of a thickness less than 4.75 mm and a width that is 12.7 mm or greater and that measures at least 10 times the thickness. The products covered also include products not in coils (e.g., in straight lengths) of a thickness of 4.75 mm or more and a width exceeding 150 mm and measuring at least twice the thickness. The products described above may be rectangular, square, circular, or other shape and include products of either rectangular or non-rectangular cross-section where such cross-section is achieved subsequent to the rolling process, i.e., products which have been "worked after rolling" (e.g., products which have been beveled or rounded at the edges). For purposes of the width and thickness requirements referenced above:

(1) Where the nominal and actual measurements vary, a product is within the scope if application of either the nominal or actual measurement would place it within the scope based on the definitions set forth above, and

(2) where the width and thickness vary for a specific product (e.g., the thickness of certain products with non-rectangular cross-section, the width of certain products with non-rectangular shape, etc.), the measurement at its greatest width or thickness applies.

Steel products included in the scope of these orders are products in which: (1) Iron predominates, by weight, over each of the other contained elements; (2) the carbon content is 2 percent or less, by weight; and (3) none of the elements listed below exceeds the quantity, by weight, respectively indicated:

- 2.50 percent of manganese, or
- 3.30 percent of silicon, or
- 1.50 percent of copper, or
- 1.50 percent of aluminum, or
- 1.25 percent of chromium, or
- 0.30 percent of cobalt, or
- 0.40 percent of lead, or
- 2.00 percent of nickel, or
- 0.30 percent of tungsten (also called wolfram), or
- 0.80 percent of molybdenum, or
- 0.10 percent of niobium (also called columbium), or
- 0.30 percent of vanadium, or
- 0.30 percent of zirconium

Unless specifically excluded, products are included in this scope regardless of levels of boron and titanium.

For example, specifically included in this scope are vacuum degassed, fully stabilized (commonly referred to as
